## MailSentry™:

Cybercriminals today are masters of evasion tactics and disguise in order to defraud financial means or deliver malware. Global BEC Losses Exceeded US\$12 Billion in 2018 (FBI).

Heimdall™ MailSentry™ uses **more than 125 vectors of analysis** and is fully coupled with live threat intelligence to find and stop Business Email compromise, CEO Fraud, phishing and complex malware before you are compromised. **It works on top of any existing mail filtering solutions** on Office 365 and Outlook for desktop.

### Product features:

- Monitoring of all e-mails alongside existing mailfilter solutions
- Detection of **BEC, CEO Fraud**, Phishing and advanced malware
- Find Imposter Threats (Modified invoices)
- **Live monitoring and alerting 24/7 by a specialist fraud team**
- Scans content of attachments in depth - wording, IBAN, SWIFT, Account numbers etc.
- Can be connected to external invoice approval systems using API's
- Alerts you if historic e-mails are detected as malicious afterwards

### Benefits:

- Directly reduce monetary loss as a result of fraudulent invoices
- Reduce mail fraud as a result of CEO imposters and negative brand impact

Currently supports Outlook for Desktop\* and Office 365

\*Requires Thor agent to be installed
